STEM Education That Creates Impact

Why does it matter?

Energy is at the heart of the UK's transition to a cleaner, more secure future — but nuclear remains one of the most misunderstood parts of the mix. Without accessible education, too many young people miss out on the chance to engage with this vital sector.

“A *Beginner's Guide to the Nuclear Industry*” helps change that. Supporting its distribution empowers schools and communities with clear, accurate science — boosting STEM skills, energy literacy, and social mobility.

Your CSR investment won't just tick a box — it sparks curiosity, challenges misinformation, and creates real opportunity.

What is it?

A high-quality hardback guide designed to make the complexities of the nuclear industry accessible through clear writing and thoughtful design. Each illustrated spread presents key topics in a structured, engaging format—supported by interactive activities, real-world career insights, and interviews with professionals across the sector.

What is it about?

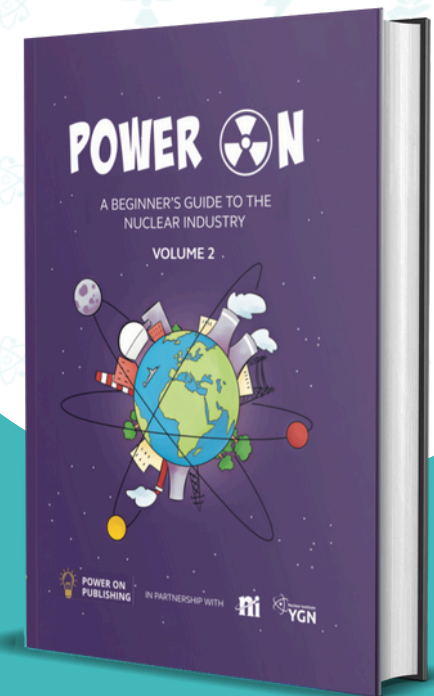

The guide explores a broad range of topics across the nuclear industry, including the fundamentals of nuclear science, how nuclear power stations operate, and the evolution of the industry over time. It also highlights key UK nuclear sites, examines current innovations and challenges, and offers insights into how the sector is tackling key challenges like sustainability, waste management, and public perception.

Who is it for?

“Power On: A Beginner's Guide to the Nuclear Industry” is suitable for learners from late primary school through to adult education. With its clear, approachable format, it serves as a valuable resource for use in schools, apprenticeship programmes, and wider community engagement initiatives.

A Beginner's Guide to the Nuclear Industry

*“MAKING NUCLEAR
MAKE SENSE.”*

Nuclear Institute Partnership

We've partnered with the Nuclear Institute to co-author the second edition of "A Beginner's Guide to the Nuclear Industry", ensuring content is expert-led and industry-approved. Through this partnership, your company can easily donate books to local schools – with all logistics handled for you.

What we offer

01

Preferential rates for bulk orders – Ideal for large-scale outreach or training initiatives.

02

School donations in your name – Sponsor books for schools via our partnership with the Nuclear Institute.

03

Custom-branded editions – Feature your company's logo and message to align with your CSR or engagement goals.

Our Charity Partner

We proudly support Bag Books, a South London charity creating multi-sensory stories for individuals with severe learning difficulties. These unique books are experienced through voice and interactive elements, not written words.

A portion of our profits is donated annually to Bag Books, and we actively use our networks to raise awareness of their work.

Written in simple, easy-to-follow language

Real job profiles to inspire future careers in STEM

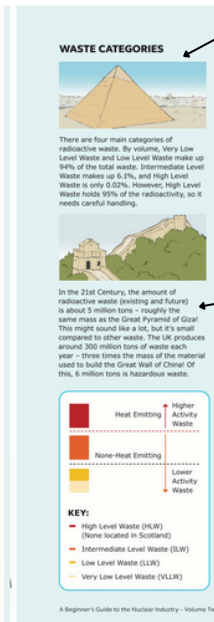

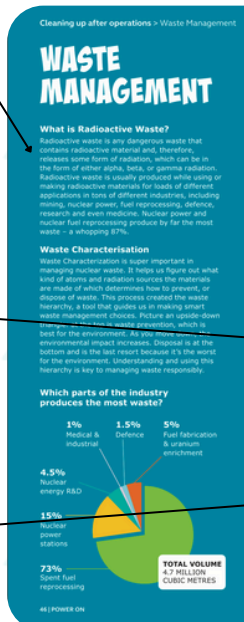

Engaging illustrations

Enhances understanding through real-world comparisons

Interactive activities to promote self-led learning

Visual learning aids

Interesting facts to spark curiosity

Ready to make a real impact?

Let's talk about how your CSR goals can support STEM education across the UK.
